

Honours: supervisor selection

student name

student signature

student e-mail

student number

Priority	Brief Description of Hons Project	Supervisor's agreement to supervise student	
		<i>in principle</i> (supervisor's signature)	OR Supervisor's commitment to supervise student (supervisor's signature)

Notes

1. "Supervisor's commitment to supervise student": The supervisor agrees to supervise the student, and the student wants to be supervised by that supervisor. This is a two-way commitment. In this case, there should be just this one project/supervisor in the above table.
2. "Supervisor's agreement to supervise student in principle": This is to cover two situations: where the supervisor has not yet made a decision about who he/she will supervise, how many students, etc AND/OR where the student has not made up his/her own mind exactly what project he/she would like to undertake; who he/she would like as a supervisor, etc. In this case, there should be 2 or 3 prioritised entries in the above table.

Please return the completed form to the General Office by the 8th November at the latest. If there is a firm supervisor-student commitment, then that relationship stands. Remaining supervisor/student commitments will be finalised in a meeting of supervisors during the last week of semester. Students' priorities will be honoured; in the case where there are too many students that have a particular supervisor as their first priority, the supervisor will determine who they will supervise, and the remaining students will be given their next lower priority project/supervisor.

Students will be given confirmation/notification of their supervisor in Honours on the 14th November (by email).
